

LISTING OF THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A comprehensive stain removal kit, comprising:
at least one cleaning formula for cleaning a stained fabric;
a rinse solution for rinsing the fabric after application of the cleaning formula;
a stain guide including information of treatment of particular stains through the application of the cleaning formula; and

[[a super]] an absorbent material for application to a side of the fabric opposite that to which a stain treatment is to be applied to absorb at least one of the cleaning formula with stain material and the rinse solution.

2. (Original) The comprehensive stain removal kit according to claim 1, wherein the at least one cleaning formula is an acidic cleaning agent.

3. (Original) The comprehensive stain removal kit according to claim 1, wherein the at least one cleaning formula is an alkaline cleaning formula.

4. (Original) The comprehensive stain removal kit according to claim 1, wherein the at least one cleaning formula is a degreaser.

5. (Original) The comprehensive stain removal kit according to claim 1, further comprising:

a vapor impervious packet enclosing at least one of the at least one cleaning formula and the rinse solution; and
the packet includes identifying information.

6. (Original) The comprehensive stain removal kit according to claim 5, wherein the packet includes information to apply at least one of the at least one cleaning formula and the rinse solution.

7. (Original) The comprehensive stain removal kit according to claim 2, wherein the at least one cleaning formula includes acetic acid.

8. (Original) The comprehensive stain removal kit according to claim 2, wherein the at least one cleaning formula is oxalic acid.

9. (Original) The comprehensive stain removal kit according to claim 2, wherein the at least one cleaning formula includes hydrofluoric acid.

10. (Original) The comprehensive stain removal kit according to claim 3, wherein the at least one cleaning formula comprises ammonia.

11. (Original) The comprehensive stain removal kit according to claim 4, wherein the at least one cleaning formula is a citrus degreaser.

12. (Original) The comprehensive stain removal kit according to claim 4, wherein the at least one cleaning formula is a solvent based degreaser.

13. (Original) The comprehensive stain removal kit according to claim 1, wherein the at least one cleaning formula includes an organic detergent.

14. (Original) The comprehensive stain removal kit according to claim 1, wherein the at least one cleaning formula includes cleaning enzymes.

15. (Original) The comprehensive stain removal kit according to claim 1, further comprising cloths or webs as a medium for the at least one cleaning formula and rinse solution.

16. (Original) The comprehensive stain removal kit according to claim 15, wherein the webs are non-woven, embossed webs.

17. (Original) The comprehensive stain removal kit according to claim 15, wherein the webs are selected from the group consisting of treated fibers, natural fibers, synthetic fibers and micro fibers.

18. (Original) The comprehensive stain removal kit according to claim 15, wherein the webs are made from rayon and polyester.

19. (Currently Amended) A method for removing a stain from a stained fabric, comprising:

positioning ^{[[a super]]} an absorbent material on one side of the stained fabric;
applying a cleaning formula to the fabric opposite the ^{[[super]]} absorbent material, such that the cleaning formula and stain material are absorbed by the ^{[[super]]} absorbent material;

applying a rinse to the fabric opposite the ^{[[super]]} absorbent material, such that the rinse is absorbed through the fabric by the ^{[[super]]} absorbent material.

20. (Original) The method according to claim 19, further comprising:
classifying the stained fabric in relation to a cleaning regimen;
applying a specified cleaning formula and rinse sequence in accordance with the cleaning regimen.

21. (Currently Amended) A method for cleaning a stained fabric, comprising:

classifying a stain to obtain a stain cleaning regimen;
positioning ^{[[a super]]} an absorbent material on a first side of the stained fabric;
alternately applying ones of a plurality of cleaning formulas and rinses in accordance with the regimen to remove the stain, the cleaning formulas and rinses being absorbed into the ^{[[super]]} absorbent material.

22. (Currently Amended) A kit for use in removing stains from fabrics, comprising:
a cleaning formula for cleaning a stained fabric;
a rinse solution for rinsing the fabric after application of the cleaning formula;
a stain guide including information for treatment of particular stains through the application of a sequence of the cleaning formula and rinse solution; and
^{[[a super]]} an absorbent material for application to a side of the fabric opposite that to which a stain treatment is to be applied to absorb an applied cleaning formula, rinse solution and stain material.

23. (Currently Amended) A comprehensive stain removal kit, comprising:
at least three vapor impervious packets, each containing a different cleaning formula for cleaning a stained fabric;
at least one vapor impervious packet containing a rinse solution for rinsing the fabric after application of one or more cleaning formulas;
a stain guide including information for treatment of particular stains through the application of a sequence of at least one cleaning formula and rinse solution; and
^{[[a super]]} an absorbent material for application to a side of the fabric opposite that to which a stain treatment is to be applied to absorb the applied cleaning formula, stain material and rinse solution.

24. (Original) A kit according to claim 23, wherein the cleaning formulas include an acidic, alkaline and degreaser cleaning formula.

25. (Original) A kit according to claim 23, wherein the rinse solution is distilled water.

26. (Original) A kit according to claim 23, further including a packet for containing the super absorbent material.

27. (Original) A kit according to claim 23, wherein the packets are labeled with application information.
